

Hi Don & Sue,

I would be very happy to second Rob's nomination

I think that Rob would make a great member's representative for several reasons:

- His breadth and depth of Identity landscape / market provide significant value to development of OIX strategy as it evolves in 2018
- With his significant contacts in the identity industry he will be to work well with the general membership and represent their views to the board
- He has a naturally reflective personal style & I think that will be a useful addition to a board, helping bringing disparate conversations and opinions together in a coherent way

Please let me know if you need anything further

Thanks, Sarah
