Meeting the KBV requirement of Element C from the HMG identity standards

October 2016

*

Context:

- IDPs certified to UK Government Standards for identity verification
- Good Practice Guide 45
- Landscape: Harder/reducing effectiveness KBVs
- Users don't like them but criminals do!

Hypothesis:

'There are potentially more innovative ways in which the requirements of KBVs of Good Practice Guide 45 could be met that would be both secure and be convenient for users.'

Objectives:

1. Market innovation
2. Proposals assessed against Government standards
3. New solutions for KBVs
4. Easier journey for users
5. Lessons for wider public sector
6. Project Report

Timeline (draft):

Dates	Activities
24/10/2016	Open project - invite for proposals
25/11/2016	Proposal acceptance closed
w/c 12/12/2016	Inform companies of outcomes (successful etc)
w/c 16/1/17	Evaluation F2F day - companies to present
w/c 6/2/17	Project report published
