

Dear Don, David,

I would like to put myself forward as a nominee as OIX chapter Board General Member Representative.

In answer to the 5 points you suggested, please see my responses below.

- What are the key opportunities you see for the OIX UK Chapter in 2018?

The key opportunities I see for the OIX UK Chapter in 2018 will be in securing consensus amongst market participants as together we navigate the introduction of GDPR, the progression of Open Banking and PSD2, and of course, the impacts of the Brexit process as they unfold.

- How will you demonstrate your commitment to the work of the chapter in terms of resources, focus and leadership?

I will demonstrate my commitment to the work of the UK chapter through proactive participation that builds the good name of OIX. I will make myself available for the in-person board and executive committee meetings in London (four or more a year). And moreover, between those meetings I will dedicate time and energy to take action on tasks agreed which further the aims of the chapter.

- What would you like to see accomplished, and how do you plan to make these things happen?

In terms of accomplishments for 2018 I would like to see the UK chapter gain a greater voice in the mainstream of the IT sector and other core sectors especially in areas where the importance of interoperability and digital identity is least understood. I would do this by establishing and maintaining regular interaction with journalists and analysts who cover those topics.

- What resources will you and your organisation bring to help the chapter attain its goals?

To help the UK chapter attain its goals I and my organisation, Mvine Ltd, will make available our considerable executive-level business networks through which to extend the awareness of OIX. I will also provide resource time in terms of communications specialists able to bring practical help to OIX UK team.

- What current or past experiences, skills, or interests will inform your contributions and views?

My contributions and views will be informed by my current membership of WCIT, and of its charitable and pro bono activities which can be summed up as members "giving something back".

In addition, my contributions and views will be informed by the complementary interests of my organisation insofar as I can bring knowledge and understanding of the market, market trends, sectorial expertise and

connections with existing and emerging players who might benefit from membership of OIX.

I can confirm that I am a member in good standing

My seconder will follow in due course

Best regards

Frank Joshi
